School Newsletter - Issue II 2021-22

From Principal's Desk

New Horizon Public School is a vast community and a multicultural society. Its students are an important and integral part of it. Students play an important role in improving and strengthening this diverse society and hence in turn improving the community.

The school newsletter is a mirror in reflecting the values, mission and ideals of this school and is a small step in showcasing the myriad hues of the community. It showcases the enlightened students of the school as it believes in its ideal of empowering students through knowledge and skills. The plethora of values and skill training imparted to the students creates knowledge, builds confidence, and breaks down barriers and creates more opportunities. For students, it is their key to open the door to a better and empowered living.

It's rightly said, "Do something now that your future self will thank you for it later".

The future lies in what is being done today. The young minds should hence be moulded and shaped to be capable and sound individual. Hence participation in all school events is the key. Students must participate in variety of school events so as to hone their personality and shape up as responsible person.

"It's not about being perfect. It's about the effort one takes as even the greatest were once beginners. So, no one should be afraid to take that first step.

"You may never know what results come of your action, but if you do nothing, there will be no result." -Mahatma Gandhi .Hence correct and timely action is the key to knowledge, success and empowerment .

I want to congratulate my editors and all those who participated to compile the Newsletter issue 2 of the academic year 2021-22.

Ms. Monalisa Basu
Principal

Editorial

"In learning you will teach, and in teaching you will learn."

— Phil Collins

As the second and final issue of the newsletter comes to you, the schools must have already started running in normal mode. Not only the learners but even the teachers are geared up to impart the knowledge that was restricted for last few years to hybrid mode.

The bond between the teachers and learners plays a crucial role in achieving best possible learning outcomes. It is rightly said that, teaching is a two-way process. Because not only the learners gain knowledge but even the teachers learn a lot from their students or learners.

These pandemic years have made it crystal clear that without physical offline classes the education system will be paralyzed.

It is through these physical offline classes; the learning takes place in the real sense of the word. One can also not deny the importance of peers in learning. Humans are by nature social and a lot of learning takes place when they come together whether as a student or an adult. No one would counter question on this fact.

The learning that takes place together is more fun - filled, enriching and memorable than the one done alone in isolation. Learning is not always done in the rigid atmosphere in fact the more lively and open the environment around, better are the chances of optimum learning.

And you all have to agree that human touch whether in form of a learner, a peer or a teacher is vital to make the roots of education grow stronger in the minds of us all.

So, till the next issue, Happy teaching and learning!

Diwali Celebration

New Horizon Public School celebrated Diwali with great enthusiasm and the kids enjoyed the activities such as sweets making, diya decoration and crackers making with clay.

Republic day Celebration

It was on this day 71 years ago, the Indian Constitution came into force and the country was declared the largest democracy in the world. The video depicting cultural events and flag hoisting was shown to the entire school followed by our beloved Principal Ms. Monalisa Basu. This national festival gives a beauti-

Navy Day

Navy Day in India is celebrated on 4th December every year to recognize the achievements and role of the Indian Navy in the country. The children were gleaming with pride and watched with enthusiasm the virtual celebration. They paid tribute to our Indian Navy for their selfless service and supreme sacrifice

United Nation's Day

Since 1948, October 24th has been celebrated as United Nations Day to acknowledge the founding of the organization. United Nations Day represents a day to reaffirm its ideals, such as world peace and protection of human rights. Through role-play the importance of the organisation was emphasized.

The Joy of Giving

"We make a living by what we get. We make a life by what we give." Students learnt the value of giving and truly celebrated the joy of sharing and giving by donating food, clothing, books etc. to the poor and needy.

Marathi Bhasha diwas

Marathi being the official language of Maharashtra, the main focus of this celebration was to promote and sustain the richness of Marathi culture among the young generation. This celebration aimed at inculcating and honouring the rich history and literature associated with it among Marathi-speaking community in the state.

Food Day—Sheera Puri

Preprimary children celebrated Diwali by sharing food with each other. The food day menu was Sheera Puri which they relished with joy and enthusiasm.

Origami activity

The skill of Origami not only helps stimulate listening skills (following instructions carefully), it greatly strengthens the fine motor skills, eye-hand coordination etc. Transforming a piece of paper into a three-dimensional object is a unique exercise. The children of Penguin Kids crafted blooming tulips and made boats on 2nd February 2022.

Instrumental Music Competition

Instrumental music enhances one's confidence and creativity. The instrumental Music Competition was held for classes VI to X. The aim was to provide an opportunity to our young students, to explore their innate talents as well as to display their music abilities.

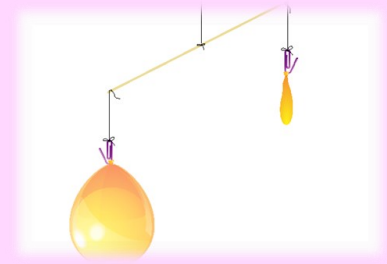

Best out of waste Competition

During this pandemic, awareness is rising, about importance of recycling. Creative and imaginative minds came together in a creative burst of energy during the “Best out of waste” competition held on 23rd December 2021. The competition focused on bringing an understanding among the children about preserving the environment by reusing and recycling waste material. The children of grade IV and V actively participated in this competition.

Air Experiments

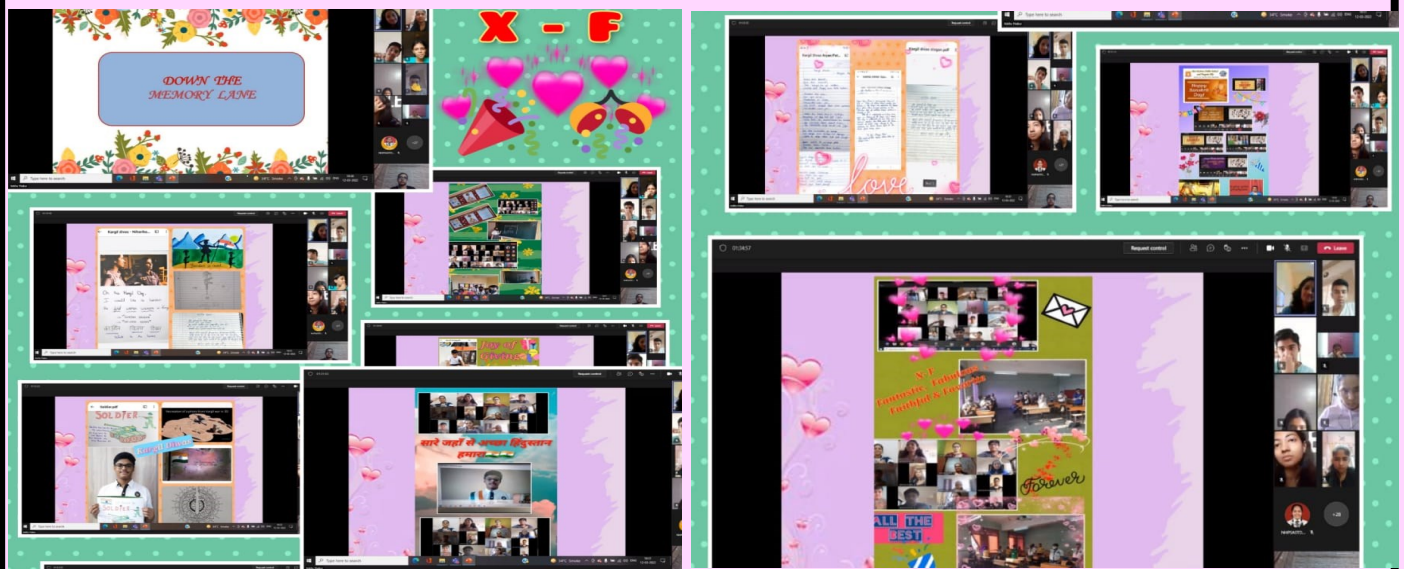

Air pressure experiments for children are a fun way to introduce kids to a new scientific concept. It's the perfect lesson for children with adult supervision with just few materials. Children loved doing this experiment

Grade X Virtual farewell

“What we call the beginning is often the end. And to make an end is to make a beginning. The end is where we start from”

The virtual farewell of grade X batch of 2021-22 of New Horizon Public School Airoli was held on 12th March 2022. The grade teachers had made PowerPoint presentations for the same. Children shared their fond memories

Quick Snack making Competition

Students were asked to make quick snacks from Pre-cooked and pre-cut vegetables and fruits. The nutrition value of the food item made was supposed to be

Gift wrapping Competition

The aim of this competition was to develop creativity, improve motor skills and visualization among students. All the students beautifully wrapped the gifts with the required material and participated very enthusiastically.

National Science Day

As per every year this year also National Science Day was celebrated in New Horizon Public School with great enthusiasm on 28th February 2022. National Science Day was observed to spread a notable message about the importance of science used in the daily life of the people. The event though virtual helped the children to understand the importance of science and technology in human life.
