Dear Parent,

This is to inform you that all students travelling by school transport must be dropped off and picked up by the parents or recognized guardians only at the schedule time. If such authorized people are not found at the bus stop, those students will be brought back to school and parents have to make their own arrangements to pick them up from school.

The first part of the instruction is applicable to all students travelling by private transport and walking students.

Expecting your co-operation.

Principal
